Accredited as DSC Master by  
Dr. Christian Coachman,  
Founder of British Academy  
of Cosmetic Dentistry

### **Dr Matthew Holyoak, UK**

BDS, Dip Rest Dent (RCS  
Eng), MSc (Rest Dent)

### **Dr Timothy Eldridge, UK**

BDS Birm  
Clinical Director myFACE

# Programme

9 modules | 95 hours of learning | Demo Videos, Lectures, Webinars, Reading Materials & LIVE Study Clubs

## MODULE 1

### Treatment Planning

The Correct Steps in the Right Order When Planning Your Aesthetic Cases

1

## MODULE 2

### Smile Design

Media vs Natural Smiles, Golden Proportion, Shade Taking, Anatomy, Photography, Tooth Whitening, Cosmetic Imaging

2

## MODULE 3

### Composites

Adhesion, Posterior Composite Techniques, Rubber Dam Placement

3

## MODULE 4

### Tooth Preparations

Essentials of Tooth Preparation, Margin Choice, PFM & Zirconia Crowns, Ceramic Inlays and Onlays, Verti Preps (Biologically Oriented Preparation Technique)

4

## MODULE 5

### Veneers

Preparation Techniques - Conventional, Minichhamfers, Butt Joints, Slice Preps, Impression, Cementation Techniques

5

## MODULE 6

### Occlusion

Principles of Occlusion, Treatment of the Worn Dentition, Occlusal Splints, Jaw Registration, Facebows

6

## MODULE 7

### Digital Dentistry

Digital Smile Design (DSD), 3D Printing, Digital Impressions & Restorations, Scanning

7

## MODULE 8

### Orthodontics

Aligners, ABC of Smile Design, Cosmetic Tooth Alignment

8

## MODULE 9

### Facial Aesthetics

Facial Anatomy, Neurotoxic Protein, Fillers

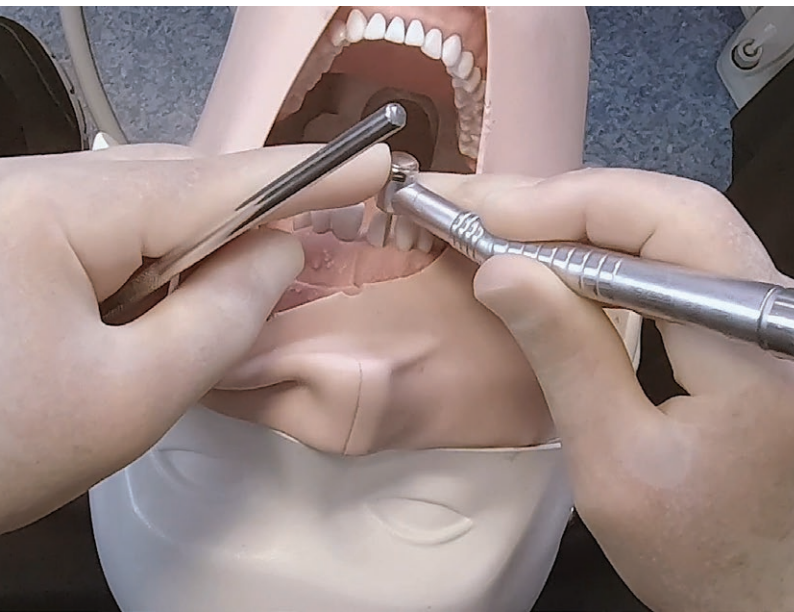

9

## PREPARATION

### PRACTICE

chloride is introduced into the cavity, absorbed by the residual bacteria in the cavity walls and then activated using light of a specific wavelength causing cell lysis, death and ozone (gaseous ozone infused into early lesions causing bacterial death). These technologies currently suffer from a paucity of clinical evidence to validate them for routine clinical use.<sup>28</sup>

#### Air-abrasion

Air-abrasion is a 68-year-old dental operative technique used for the removal of enamel and dentine during cavity preparation.<sup>27,28</sup> Air abrasion units are capable of minimally invasive tooth preparation using 27 µm aluminium oxide (a-alumina).<sup>29,30,30</sup> However, dentists are used to the parameters of tactile feedback and an appreciation of finite cutting depth when using rotary tooth-cutting techniques, both of which the end-cutting alumina air abrasive jet lacks. This makes the use of alumina air abrasion highly operator-sensitive and requires careful education of clinicians to realise its potential for minimally invasive preparation and the prevention of cavity over-preparation.<sup>31</sup> Studies have been published that characterise the efficacy of alumina air-abrasion and its cutting

Fig. 4 The dentine at the periphery has been initially excavated to a depth of caries-affected dentine but flakes of very soft infected dentine remain over the pulpal aspect of the cavity

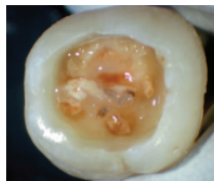

Fig. 7 Cavitated occlusal caries with soft infected dentine evident

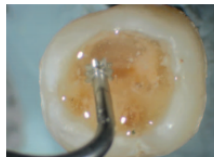

Fig. 8 Initially clear, slightly viscous Carisolv® gel introduced into the cavity using the mace-tip hand instrument and left for 40 seconds before excavation

# Key Facts

100% online. Because it is delivered virtually, it is 100% free from travel and you learn from the comfort of your own home. You can start the programme at anytime from anywhere.

The online programme is split into 9 modules.

Power-learning short sessions: the classes are short and focused (30-45 min each), so that you can always fit them into your busy daily schedule.

Target audience: GP Dentists, Dental Students, and other Specialist Dentists.

Training delivered by UK specialists.

This is a non-commercial and non-sponsored educational programme. The speakers are not sponsored or have any commercial interests with any company. The programme delivers only high quality and evidence-based education.

Faculty lead: Prof. Paul Tipton from the UK who is an internationally acclaimed Specialist in Prosthodontics and has worked in private practice for more than 30 years. He is the President of the British Academy of Restorative Dentistry (BARD) and is the founder of Tipton Training Ltd, and the author of over one 100 scientific articles for the dental press.

Awarded by the British Academy of Restorative Dentistry (BARD).

After completion of this programme, you will have the possibility to join the face-to face Restorative Aesthetic Dentistry Professional Training in Dubai, UAE. The payment for the online programme will be deducted from the total amount paid for the face-to-face programme.

# Frequently Asked Questions

## **Where is this programme going to take place?**

100% online. Because it is delivered virtually, it is 100% free from travel and you learn from the comfort of your own home.

## **Are there networking opportunities?**

Yes, every month for a period of 1 year you will have access to LIVE Study Clubs where you will be able to meet the tutors on the programme as well as your fellow colleagues who are doing the same programme.

## **When does the programme start and finish?**

The programme starts now and never ends! It is a completely self-paced online programme - you decide when you start and when you finish.

## **What happens if I have questions?**

You will be able to ask any questions via the monthly LIVE Study Clubs as well as address the speakers directly via e-mail.

## **Is there an exam and what is it consisting of?**

At the end of every module, you will have to sit a short quiz consisting of 5-10 multiple choice questions. At the end of the programme, you will sit the final exam consisting of multiple-choice questions. Pass mark is 60% and you can repeat the exam up to 5 times if failed.

## **What are the requirements for signing up for the programme?**

You need to be a General Practitioner (GP) Dentist, any other type of dentist or a dental student in order to be eligible for the programme.

## **What is the deadline for the registration?**

There is no deadline. You can start at any-time from anywhere.

## **What is included in the price?**

Price is inclusive of full access to the 9 modules, VAT, exam and potential resits, hard copy Training Certificate shipment to anywhere in the world and 1-year unlimited access to monthly LIVE Study Clubs

## **What is British Academy of Restorative Dentistry (BARD)?**

The mission of the Academy is to promote the improvement of the people oral health and in particular the quality of occlusion based restorative dentistry performed by promoting educational opportunities and structured learning pathways, and to advance the art and science of Restorative and Aesthetic Dentistry.

BARD fulfills this mission by creating a network of like-minded dental professionals, promoting and supporting Certification, Diploma and Fellowship pathways, providing accurate information for both patients and dental professionals and creating a structured learning pathway in Restorative and Aesthetic dentistry.

## **What is the core purpose of the British Academy of Restorative Dentistry (BARD)?**

The British Academy of Restorative Dentistry (BARD) is an organisation whose core purpose is the education of dental clinicians, aiding in the improvement of Oral Health by offering them a flexible learning pathway.

# What Did They Say?

"It has been a great experience taking this course. Every part of the learning was made easier, simpler yet enlightening. I highly recommend this course and looking forward to attending future courses with you guys."

**Dr. Ann Sharon Alvarez, UAE**

"I am glad that I chose the course and I am thankful to Prof Paul Tipton, BARD and CAPP for conducting it online as we get the opportunity to get updated and learn modern techniques from home itself without spending and worrying about extra time or travel. The course is very educative and ideally explanatory. It touches on entirely all aspects of modern dentistry which every clinician should be updated about. I am proud to be part of the new standard and techniques in dentistry."

**Dr. Rekha Jayakumar, UAE**

"The programme was awesome and the veneer module was great."

**Dr. Stephanie Restu Asmoro, Indonesia**

"What I liked about the programme is that it allows for schedule flexibility."

**Dr. Zyrille Jaye Torres Tan, Philippines**

"Help me in correction of many things I was not doing adequately."

**Dr. Quratulann Rahat Aziz, UAE**

"I learned how important is each detail during treatment."

**Dr. Jamile Charif Mohamad Youssef, Saudi Arabia**

"The main advantage of this programme is that I gained confidence and knowledge to implement into my practice"

**Dr. Muzammil Sadak , Kenya**

"Very convenient that can be followed whenever you want and live study club with Prof. Paul is a great advantage over other online programs."

**Dr. Mira Plazinic, Serbia**

"I enjoyed these modules and repeated them as often as needed. This program was super amazing, I loved the fact that it was convenient to fit in my daily schedule. Very easy to access and continue my lectures. Clear content. The variety of topics made everything more interesting. I would definitely take such modules again in more advanced content."

**Dr. Dana G. El-Zahr, UAE**

"Since it is online, I can access the lecture anytime. Also if there are things that I missed or don't understand, I can easily rewind the video. Lectures should all be like this. Also, study clubs by Prof Tipton is very helpful."

**Dr. Carlota Carlota-Manauis, UAE**

"The programme was excellent and well organised."

**Dr. Ramanjit Kaur, Australia**

"It's updated my knowledge and showed me a few tricks to improve my practice."

**Dr. Zaher Safadi, Ghana**

"After the knowledge I gained from Prof. Paul Tipton, I have decided to start doing crowns"

**Dr. Elvira Shaislamova, Ukraine**

"This program provides easy access to learning for dentists no matter where they are. I like this program because is simple, easy to use and we can access it from anywhere."

**Dr. Yonathan Mesach, Sp.KG, Indonesia**

# What Did They Say?

"The best part was upskill my knowledge and aesthetic applications in daily practice."

**Dr. Goh Aik Munn, Malaysia**

"Each and every aspect of aesthetic dentistry was covered in detail. I liked the knowledge and experience of all the instructors especially Dr Tipton."

**Dr. Kartik Ravi Raman, India**

"I gained confidence to do veneers."

**Dr. Lee Hui Shan Coral Vera, Singapore**

"I am now determined and more confident in providing cosmetic dental work."

**Dr. Wang Chi Chan, Australia**

"Enhanced my knowledge and practice efficiency."

**Dr. Aya Mohamed Abdelhalim Abouzaid Mohamed, Saudi Arabia**

"I liked link the flexibility of the study time."

**Dr. Omoshiro Evelyn Eshikena , Nigeria**

"I liked constructive and step-by-step guidance on treatment planning and tooth preparation."

**Dr. Genie Ooi, Malaysia**

"I can deal with full mouth rehab cases now after the programme. I liked the practical session videos."

**Dr. Hammad Athar, Pakistan**

"The lectures were great though I missed the practical part but still okay. It was very helpful and worth of what I paid."

**Dr. Amjad Khalil Husni Al-Madi, UAE**

"I genuinely loved all the content shared by all the speaker."

**Dr. Sylvia Lim Sze Fen, Malaysia**

"Prof Tipton, your classes have been inspirational and completely changed how I practice dentistry and examine patients especially when it comes to occlusion."

**Dr. Muzammil Sadak , Kenya**
