CAPP Asia concluded its 4th Asia-Pacific CAD/CAM & Digital Dentistry International Conference & Exhibition with yet another success!

From 18-20 August 2017, CAPP Asia welcomed over 1260 elite dental professionals and industry players who gathered together in Singapore at this specialized conference and exhibition to acquire new knowledge and exchange ideas.

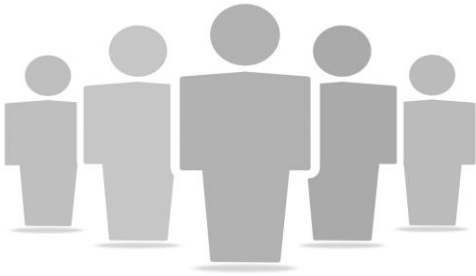

The entire event falls under the umbrella of 'Singapore Dental Week' with the addition of the very first Digital Orthodontic Forum (18 August 2017), an extension of the Dental Technician Parallel Session (2 days event on 19-20 August 2017), a completely focused trade show exhibition featuring the latest products launched after the International Dental Show in Cologne and a list of multidisciplinary hands-on courses taking place between 18-21 August 2017.

The scientific program provided the international multitude of dental professionals with noteworthy up-to-date presentations completed with latest trends, developments and techniques from world renowned key opinion leaders. The meeting provided excellent networking for new contacts whilst strengthening existing relationships. This year's attendance was yet another record-breaker for the history of the digital event in Asia!

Digital Orthodontic Forum 2017

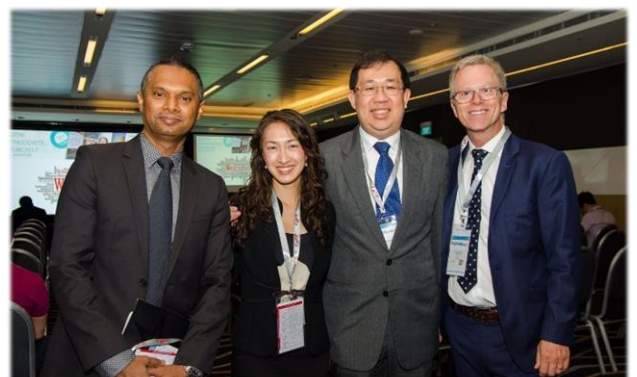

CAPP Asia brought together 6 elites in the field of orthodontic for the inaugural edition of the Digital Orthodontic Forum on 18 August 2017. Chaired by Dr Geraldine Lee, the forum was opened by Guest of Honor – Dr Bryce Lee, President of the Asian Pacific Orthodontic Society (APOS). Delegates got to learn the latest trends and developments in Digital Orthodontics along with hands-on experience with products on display.

"I liked everything. I thoroughly enjoyed the whole weekend. I will be coming back."

"Good speakers and well organized."

"Presentations were excellent and relevant!"

Plenary Session

"I liked all the presenters, and the topics were synergistic."
